

The Ultimate Photo/Laptop Backpacks

Tamrac's popular Expedition Series backpacks set the standard for photo/laptop backpacks.

Model 5588

Model 5587

Computer Compatible

Laptops can be carried in the foam-padded front pocket.

Hinge Dividers in the 5x, 6x, 7x and 8x adjust to accommodate a second digital SLR with a lens attached.

*U.S. Patent 683050B1

* To make Models 5588 and 5587 carry-on compatible, fold the shoulder harness and waist belt to the sides of the pack.

Dual-Density Comfort Pads provide maximum carrying comfort.

Expandable Sternum Strap keeps shoulder harness in place and stretches to allow easy breathing.

BioCurve™ Dual-Pivoting waist belt

BioCurve™ waist belt has two pivot points allowing a wide range of adjustment for maximum comfort.

Air Flow Channels help keep you cool and dry.

EasyGrip™ padded handle.

Adjustable cinch straps secure heavy loads.

Model 5587

Modular Accessory System™ attachment slots. Modular Accessories sold separately.

Strap Accessory System™ attachment slots. SAS sold separately.

Compression Straps provide back-up protection to the main compartment.

SpiderTabs™ on sides to tie on expedition equipment or extra clothing.

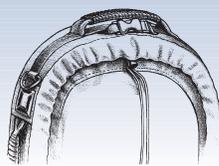

Fully Padded with thick, closed-cell foam.

Adjustable, foam-padded dividers for custom fit to equipment.

Rigid, foam-padded platform in bottom.

Foam-Padded front pocket for up to 17" screen laptop.

Windowpane-Mesh™ pockets for filters and other accessories.

LockDown™ Rain Flap for weather protection.

Lens cinch straps hold zoom lens in place.

Foam-Padded Plastic in vertical dividers for maximum support and strength.

Patented Memory & Battery Management System™* How it works:

With red flag tucked behind memory card or batteries, it allows access and indicates that memory card or batteries are available for use.

With red flag covering pocket, it limits access and indicates a full memory card or batteries in need of charge.

*US patent 683050B1

Optional Modular Accessory System™ (M.A.S.™)

Expedition Series packs accept the optional M.A.S.™ products pictured below plus others. See pages 78-79 for the full line of accessories and a complete description.

Model 5588

Patents Pending

The Expedition 8x is Tamrac's largest backpack for carrying the most extensive collection of photo equipment. The main compartment is completely foam padded with numerous adjustable, foam-padded dividers to protect multiple pro-size digital or film SLRs with lenses attached, a full range of lenses, and flashes. A foam-padded front pocket with a water-resistant zipper holds most 17" screen laptops.

Two "wing" accessory pockets with water-resistant zippers organize and provide quick access to important accessories without disturbing your other gear. These "wing" pockets also feature Tamrac's patented Memory & Battery Management System™ that uses red flags to identify available memory cards and batteries from ones that are used up. A tripod is cradled (centered and balanced) securely between these pockets with Tamrac's QuickClip™ tripod attachment system while the lower plastic-reinforced Tripod Foot Pocket holds two tripod legs secure.

Inside, a camera with a long zoom lens attached is suspended on two vertical, foam-padded dividers that are internally reinforced with rigid plastic. Restraint straps

hold the lens firmly in place. Three Windowpane-Mesh™ pockets inside the front flap visibly organize filters, film and other accessories. A plastic, foam-padded platform in bottom provides shock protection while the LockDown™ Rain Flap protects the zipper from the elements.

The state-of-the-art harness system features Dual-Density Comfort Pads that provide maximum carrying comfort while Air Flow Channels help keep you cool and dry during extended use. The pack is also equipped with a BioCurve™ dual-pivoting waist belt to provide a wide range of adjustment (adjusts to 63"). Cinch straps on the shoulder harness and waist belt, and an expandable sternum strap allow finer adjustments for maximum comfort. The harness also features "D" rings that accept Tamrac's optional backpack camera strap (Model N-11).

Strap Accessory System™ (S.A.S.™) and Modular Accessory System™ (M.A.S.™) attachment slots on the pack provide a convenient place to carry Tamrac's optional M.A.S.™ and S.A.S.™ products (shown on right). Four SpiderTabs™ provide additional attachment points for expedition equipment or extra clothing.

Accepts Our Optional S.A.S.™ Products.

*S.A.S.™ products sold separately.

5584 Expedition 4x
 Internal: 10W x 5D x 11H (25 x 13 x 28cm)
 External: 12W x 9½D x 14H (31 x 24 x 36cm)
 Color: Black
 Weight: 3 lb. 14 oz. (1764g)

The Expedition 4x is a compact, feature-rich pack for any photographic outing. The main compartment is completely foam padded with numerous adjustable, foam-padded dividers to protect a digital or film SLR with a lens attached, 3-4 lenses (including a 70-200mm zoom), and a flash. The front pocket is foam-padded for portable DVD players or viewers with up to an 8" screen.

Two "wing" accessory pockets with water-resistant zippers organize and provide quick access to important accessories without disturbing your other gear. These "wing" pockets also feature Tamrac's patented Memory & Battery Management System™ that uses red flags to identify available memory cards and batteries from ones that are used up. A tripod is cradled (centered and balanced) securely between these pockets with Tamrac's QuickClip™ tripod attachment system while the lower, plastic-reinforced Tripod Foot Pocket holds two tripod legs secure.

Expedition Series packs accept Tamrac's optional accessories. See pages 76-79.
