VELOCITY SERIES

CAMERA CARRYING SYSTEMS

Tamrac's New Velocity Series

features zippered tops that open away from the body for fast access to camera gear, Tamrac's integrated Memory & Battery Management System™, and a sleek new design that is as functional as it is cool.

5769 Velocity 9x

Internal: 11W x 6½D x 13H (28 x 16 x 33cm)

External: 13W x 7D x 15½H (33 x 18 x 39cm)

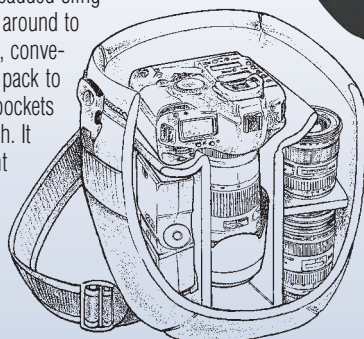

Colors: Black, Blue

Weight: 2 lb. 8 oz. (1134g)

The Velocity 9x, the largest version of our popular sling packs, holds a pro digital or film SLR with a grip (such as Canon's EOS 1D Series or Nikon's D Series) and a 10" zoom lens attached such as a 70-200mm, a couple of additional f/2.8 zooms and a flash. Inside the main compartment, the camera with lens attached is suspended on two vertical, foam-padded dividers that are internally reinforced with rigid plastic. The Velocity 9x can be carried comfortably like a backpack, but need not be removed to quickly access photo equipment. The well-padded sling strap comfortably distributes the weight and when the bag is swung around to the front, the secure zippered top opens away from the body for fast, convenient access to camera gear. A Tuck-A-Way™ waist belt allows the pack to be used even while hiking or biking. The front pocket has organizer pockets inside to keep a mobile phone, PDA or photo accessories within reach. It also features Tamrac's patented Memory & Battery Management System™ that uses red flags to identify available memory cards and batteries from ones that are used up. A pocket inside the lid stores filters and lens caps. This pack is also customizable with Tamrac's Modular Accessory System™ components.

Velocity 8x

Internal: 9 1/4" W x 5 1/2" D x 11" H (24 x 14 x 28cm)
External: 12 1/4" W x 6" D x 13 1/4" H (31 x 15 x 34cm)
Colors: Black, Blue
Weight: 2 lb. (907g)

This sling pack is slightly smaller than the Velocity 9x, but also accommodates a pro digital or film SLR with a grip (such as Canon's EOS 1D Series or Nikon's D Series) and an 8" zoom lens attached such as most 70-200mm lenses, two additional lenses and a flash. Inside the main compartment, the camera with lens attached is suspended on two vertical, foam-padded dividers that are internally reinforced with rigid plastic. The Velocity 8x can be carried comfortably like a backpack, but need not be removed to quickly access photo equipment. The well-padded sling strap comfortably distributes the weight and when the bag is swung around to the front, the secure zippered top opens away from the body for fast, convenient access to camera gear. A Tuck-A-Way™ waist belt allows the pack to be used even while hiking or biking. The front pocket has organizer pockets inside to keep a mobile phone, PDA or photo accessories within reach. It also features Tamrac's patented Memory & Battery Management System™ that uses red flags to identify available memory cards and batteries from ones that are used up. A pocket inside the lid stores filters and lens caps. This pack is also customizable with Tamrac's Modular Accessory System™ components.

Modular Accessory System™ (M.A.S.™)

Models 5769, 5768, 5767, 5766, and 5765 accept the optional M.A.S.™ products pictured, plus others. See pages 78-79 for more on M.A.S.™

Velocity 7x

Internal: 8½"W x 4½"D x 10"H (22 x 11 x 25cm)

External: 11½"W x 5½"D x 12"H (29 x 14 x 30cm)

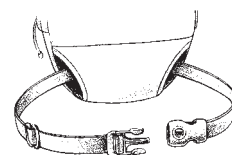

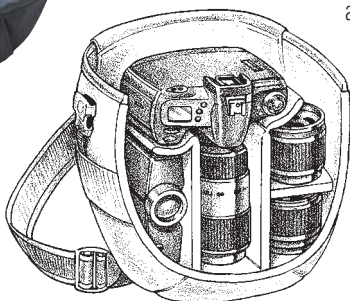

Colors: Black, Blue

Weight: 1 lb. 9 oz. (703g)

Though it doesn't look like a camera bag, the Velocity 7x is an ultra-functional sling pack that carries an SLR with a 6" lens attached and a couple of small additional lenses. Inside the main compartment, the camera with lens attached is suspended on two vertical, foam-padded dividers. The Velocity 7x can be carried comfortably like a backpack, but need not be removed to quickly access photo equipment. The well-padded sling strap comfortably distributes the weight and when the bag is swung around to the front, the secure zippered top opens away from the body for fast, convenient access to camera gear. A Tuck-A-Way™ waist belt allows the pack to be used even while hiking or biking. The front pocket has organizer pockets inside to keep a mobile phone, PDA or photo accessories within reach. It also features Tamrac's patented Memory & Battery Management System™ that uses red flags to identify available memory cards and batteries from ones that are used up. A pocket inside the lid stores filters and lens caps. This pack is also customizable with Tamrac's Modular Accessory System™ components.

A Tuck-A-Way™ waist belt allows the Velocity 7x, 8x, and 9x to be used comfortably and safely, even during vigorous activities such as hiking and biking.

5766

Velocity 6x

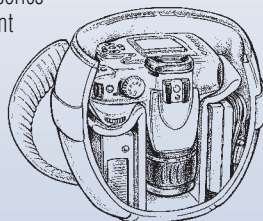

Internal: 7½"W x 4"D x 8½"H (19 x 10 x 22cm)

External: 9½"W x 5½"D x 10½"H (24 x 13 x 26cm)

Colors: Black, Blue

Weight: 1 lb. (454g)

The Velocity 6x is a compact sling pack designed for a compact digital or film SLR with a zoom lens attached up to 5" long, another small lens or flash and accessories. Inside the main compartment, the camera with lens attached is suspended on two vertical, foam-padded dividers. The Velocity 6x can be carried comfortably like a backpack, but need not be removed to quickly access photo equipment. The well-padded sling strap comfortably distributes the weight and when the bag is swung around to the front, the secure zippered top opens away from the body for fast, convenient access to camera gear. The front pocket has organizer pockets inside to keep a mobile phone, PDA or photo accessories within reach. It also features Tamrac's patented Memory & Battery Management System™ that uses red flags to identify available memory cards and batteries from ones that are used up. A pocket inside the lid stores filters and lens caps. This pack is also customizable with Tamrac's Modular Accessory System™ components.

5765

Tuck-A-Way™ waist belt converts to a hip pack.

Zippered top opens away from the body for fast and convenient access to camera gear.

5765

Velocity 5x

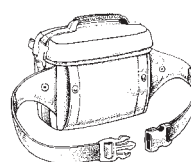

Internal: 9½W x 4½D x 8H (24 x 11 x 20cm)

External: 12W x 7D x 9¼H (30 x 18 x 25cm)

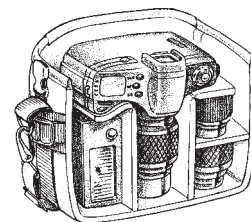

Colors: Black, Blue

Weight: 1 lb. 12 oz. (798g)

This high performance and versatile hip pack convertible doesn't look like a camera bag, but it holds and protects a digital or film SLR with a 5" zoom lens attached, an additional lens and a flash. Inside the main compartment, the camera with lens attached is suspended on two vertical, foam-padded dividers. It converts from a shoulder bag to a hip pack with the Tuck-A-Way™ hip belt (adjusts to 53"). Cinch straps on the hip belt help stabilize the pack. For fast and convenient access to camera gear, the zippered top opens away from the body. The front pocket has organizer pockets inside to keep a mobile phone, PDA or photo accessories within reach. It also features Tamrac's patented Memory & Battery Management System™ that uses red flags to identify available memory cards and batteries from ones that are used up. A pocket inside the lid stores filters and lens caps. This pack is customizable with Tamrac's Modular Accessory System™ and Strap Accessory System™ components.

Untuck the Tuck-A-Way™ hip belt to convert from a shoulder bag to a convenient hip pack.

Converts to a shoulder bag.
